All dates should be in eight digit format.

Enter appropriate revenue codes for all services provided. Revenue code 636 should be used when billing for PuraPly AM.

15273 and 15274 should be used based on the size of the wound. For example, a LEG wound measuring 132 sq cm, would be billed using 15273 (first 100 sq cm or less) and 15274 (each additional 100 sq cm or part thereof).

PuraPly AM is supplied in 128 sq cm and is for single use. This example is for a 132 sq cm wound, 1 piece of PuraPly AM 128 sq cm and 1 piece of PuraPly AM 4 sq cm was needed to cover the wound.

There is a MUE on Q4172 maximum unit limit per line of 128.
 The CMS Medically Unlikely Edit (MUE) program was developed to reduce the paid claims error rate for Medicare claims due to clerical entries.
 The appropriate use of HCPCS/Current Procedural Terminology (CPT) modifiers to report the same code on separate lines of a claim will enable a provider/supplier to report medically reasonable and necessary units of service in excess of an MUE value. CPT modifier such as -76 (repeat procedure by same physician) will accomplish this purpose
